

Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper which automatically triggers to unload when bumper release touches the side of a dumpster. As soon as unloading is finished, the hopper goes back to a locked and upright position. This piece of machinery also comes along with a cable which enables operation from the seat of the forklift so as to have the option of manually unloading the hopper. There is a locking chain provided to secure the hopper to the tire truck. This particular product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish so as to maintain durability.
