

Meritor Parts

Meritor Parts - Meritor is a premier global supplier which is proudly established on a one hundred year custom of service and quality. They focus on several integrated systems, modules and parts to original equipment makers and the aftermarket for the industrial and transportation sectors.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their global operations. Meritor starts with a culture which values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced professionals.

Meritor strongly believes in just hiring future focused people. These top-caliber individuals can quickly get used to to changing environments and freely exhibit the level of commitment and performance considered necessary so as to attain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor offers all their employees different chances for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that include axles, drivelines, suspension and braking systems for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group who is devoted to ensuring optimum development at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

The supplier development network is specifically situated to support new business development. Regional teams are supported by international initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within every part of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is even included transactional Green Belts who apply Six Sigma tools to business techniques and apply lean techniques.
