

Clark Forklift Part

Clark Forklift Parts - Currently, there are no less than 350,000 Clark lift trucks performing worldwide, and more than 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific items designed for 20 exclusive models of lift trucks and automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs offered by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark's recurrent effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has selected the structure of "Lean Production" at all of its assembly plants for the reason that this technique is extremely economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is designed to discover and acknowledge the most efficient ways for manufacturing facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The new value engineering agenda combines innovative product improvement and provides improved client support and service within the industry.
