

Forklift Electrical Part

Forklift Electrical Parts - Lift trucks can be purposely labeled to be utilized in unsafe places. A labeled truck denotes the design has met the least standards of ANSI/UL 558 for engine powered trucks or ANSI/UL 583 intended for electric trucks for the type of label placed.

The application for labels meant for lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance provider and Fire Marshall for further info regarding the permitted uses of industrial powered forklifts in your application.

If the specific lift truck meets the outlined standards, labels may be attached. A labeled forklift will show the type of designation located on the nameplate and would have a properly corresponding label attached.
