

Barrel Clamps

Barrel Clamps - A Barrel Clamp is really a mechanical or hydraulic accessory intended for a lift truck. It could be used in order to grip the item you need to move utilizing the forklift and is typically used for handling barrels, kegs and paper rolls. A few designs of barrel clamp attachments even have a revolving function. Like for instance, the revolving function allows the individual operating the forklift to be able to put in a vertically stored paper into the horizontal intake of a printing press.
